## NOTICE OF FORFEITURE.

Ira Fancher and Wm. Turner, you heirs and assigns:

Ira Fancher and Wm. Turner are hereby notified that the undersigned has expended in labor and improvements on the Hill Top lode mining claim, situated in the Goldfield mining district, Nye county, Nevada, the sum of \$100, the sum for the years 1909, 1910, 1911, of which you Ira Fancher, are a half owner, and you, Wm. Turner a one-fourth owner. Under the provisions of section 2324, of the Revised Statutes of the United States of America, covering annual assessment labor on mining claims; the proof of labor of the said claim was duly recorded at the recorder's office, at Goldfield, Esmeralda county, State of Nevada. Said expenditure was the amount necessary to hold said mining claim during the aforesaid years and if within 90 days from the date of the first publication of this notice, you fail or refuse to contribute your proportion of said expenditure as co-owner, which amounts to \$225 to you together with the cost of this advertisement, your interest in the said claims will become the property of the undersigned, your co-owner, who has made the expenditure and improvements above mentioned.

HUGH SUTHERLAND.  
Dated at Tonopah, Nevada, this 25th day of January, 1912.  
Last publication April 26th, 1912.

Mining Outlook  
In Mineral County

From a personal investigation of a number of the camps of Mineral county, and from reliable reports furnished us from others, we have no hesitancy in stating that never in the history of this part of the state of Nevada was the mining outlook so promising. With the prices of copper and silver going up, the mine owners have cause for encouragement and renewed energy and activity. And the smelter at Wabuska, added to the low rate on ores given by the Southern Pacific company, makes the lot of the copper producer of this county rosy indeed. As mining is one industry that is not affected by a presidential election, and taking into further consideration that there is more actual mining going on in all parts of this county, everything points unmistakably to a mining boom in Mineral county before fall. A general review shows activity in every camp. From Rawhide comes reports of new finds, increasing activity, better milling facilities and the advent of new capital and new people. Around Schurz the Queen Regent camp, Terrell, Black Mountain and Reservation Hill there is great activity. New capital is coming in, good ore bodies are being developed and new finds made. At Glitts and Thorne and other camps east of Walker lake, rich strikes are reported and two or three shipments have been brought in. At Hawthorne there is a spirit of hopefulness not seen since the Lucky Boy boom. Lucky Boy camp itself is showing up better than at any time in its history. Good progress is reported on the long tunnel being driven by P. B. House and associates to tap the enormous ore bodies of their Cat Creek properties. Electric wires from the Hydro-Electric power plant in Mono county are being strung into Aurora and that old bonanza camp promises to surpass her record of early

days before the summer is over. At Sonoma, Sweetwater, East Walker, Mount Grant, Pine Grove, Rockland and that part of Mineral county, reports are of the most encouraging nature. From the Pamlico and Greek Hill comes reports of the resumption of operations on an extensive scale. At Excelsior Mountain, F. G. Qualey and associates have opened up the biggest copper property in the state. A million dollars' worth of sulphide copper ore blocked out and the property in shape to make regular shipments of 250 tons daily. If means of transportation were available. Beyond this Hutton valley and Marietta, which are attracting the attention of prospectors through some rich finds, recently uncovered. There is a mining revival at Queen, Buena Vista and Sunland, south of Mina, in the White Mountains. Good strikes are reported at these points and the Tip-Top at Sunland is making regular shipments to the smelter. At Candelaria three properties are shipping and the American Smelting & Refining company have men sampling the old dumps with a view of shipping several hundred tons a day to their smelter plant in the Salt Lake valley to use as flux. High-grade ore shipments are being made from Redlich, a station on the Tonopah & Goldfield railroad. Good ore is being shipped from the neighborhood of the Moho. East of Mina the Taft has shipped eleven cars of ore to the Wabuska smelter, while the Table Mountain and MacNamara and Price estates are piling hundreds of tons of a good grade of milling ore on the dumps for treatment as soon as facilities are provided. In the Gold Range district to the west of here the Wheeling Gold Range and the Wagner estates are sacking high grade ore for shipment. In the same district at Camp Douglas, the old Douglass estate is now being operated by a leasing company. Rich strikes have been made on this property and also by Gilbert and Towers and C. W. Ward. Operations on an extensive scale are to be resumed on the Hyde and Grassi properties. Operations are being pushed by Manager Priess on the Davenport-Independent estate and by Superintendent Otto Zeigler on the Little Chief, while a new stamp mill is nearing completion. In the great copper belt around Luning mining, since the blowing in of the smelter at Wabuska, is rapidly assuming the nature of an old-time boom. Six properties have become regular shippers and two more are to be added to the list soon. A number of deals have also been made at good figures. Mineral county certainly offers today a profitable and inviting field to the mining investor.—Western Nevada Miner.

## CONDUCTING ORGANIZED PROPAGANDA TO WRECK REPUBLICAN PARTY.

WASHINGTON, April 17.—A statement, in part, as follows, was issued from the national Taft bureau yesterday after a visit to the White House by officials of the president's campaign headquarters:

"Former President Theodore Roosevelt, in his campaign for re-nomination for a third term in the White House, is conducting an organized propaganda to wreck the republican party. No word or deed has, up to this time, been too mendacious or too villifying and mean, either on his own part or on the part of his understrappers, to accomplish the recognized end they have in view.

"Mr. Roosevelt himself has denounced by name the republican leaders in New Jersey and in New York who now oppose him for a third term, regardless of the fact that he accepted to the full their support for governor and for vice president and president of the United States, and notwithstanding the fact that William L. Ward of New York, who for years has worked hand in hand with every republican leader in the state from T. C. Platt and B. B. Odell down to William Barnes Jr. has been the active supporter, the political adviser and the personal representatives of Mr. Roosevelt in all 'deals' necessary to the progress of the Roosevelt movement, engineered from New York headquarters in this contest.

"In contrast, the conduct of President Taft and his supporters stand forth as a sincere endeavor to maintain the republican party, not only in accordance with its principles and tenets, but as a militant political organization which wins victories at the polls.

"The deliberate, reckless and the mendacious campaign of Theodore Roosevelt for the wrecking of the republican party is called to the attention of the country in order that the issues hereafter may not be misunderstood."

## MUSIC! MUSIC!!

Instrumental and vocal. New records for the Victor Victrola. The Nevada club has just received direct from the Victor company a shipment of all the late records, including the "Turkey Trot." If You Talk in Your Sleep Don't Mention My Name; in fact, all the late and up-to-date records. Come and hear the Victor Victrola in its realistic reproduction of all late vocal and instrumental music. Free lunch and Radwaiser beer on draught.

## DON'T WAIT SO LONG.

One of the most surprising things in the world to druggists is that so many people endure unnecessary suffering and trouble.

Every day they hear people say: "I have been feeling so weak and miserable for the last few months that I finally decided to come and ask you what to do for it."

For instance, Miss Zulab Teagarden of Connellsville, Pa., says in a letter: "For years I had been in bad health owing to run-down system and general weakness. I had no appetite, was tired out, and had no strength.

"Hearing so much about Vinol I decided to try it, and I find it the greatest of all remedies. It has built up my strength, restored my appetite, and made me as well as ever. I might just as well have had this benefit years ago if I had taken Vinol then."

Now if you are weak and in poor health, don't wait another day, but let Vinol, our delicious red liver and iron remedy, without oil, make you strong. We guarantee it—you get your money back if not satisfied—Mines' Drug Store, Inc., Tonopah, Nevada.

CHILD LIFE  
IN LONDON  
IS HORRIBLE

LONDON April 17.—Pitiful tales of child life in the slums of London are told in the annual report of the London county council, just issued. Describing conditions in one typical district, that of Edinburgh Road, the medical officer of education says:

"The great amount of anaemia and malnutrition among whose children is attributable to poverty, with its resultant evils of dirt, under-feeding and female labor. The main articles of diet are indifferent bread and butter, the fag ends of coarse meat, the outside leaves of green vegetables and an occasional pennyworth of fish and potatoes. Approximately one-third of the children in this neighborhood are supported by female labor, owing to inability of the men to get work. The girls are required to work far beyond their strength at domestic drudgery, while the boys hang around public houses and the gas works, picking up scraps of food or coppers from the workmen. It is not uncommon to find girls of ten years doing a hard day's work outside of school hours."

SUFFRAGISM IS  
FOR ALL RACES

PORTLAND, Ore., April 17.—One touch of suffragism makes the whole world akin is the opinion today of those who attended the suffragists' banquet given here, at which Caucasian and Chinese women suffragettes sat side by side and discussed on terms of perfect equality the progress of "the cause."

Mrs. S. K. Chan, a prominent Chinese woman, delivered an address through an interpreter in which she noted with satisfaction that the Chinese were more progressive than Americans, women in her country having been granted national suffrage.

The banquet was given in honor of La Reine Helen Baker, an English authoress, prominent in suffrage work.

ODD CLAIM IS  
MADE BY MAN  
FOR INSURANCE

OLYMPIA, Wash., April 17.—The state industrial insurance commission today is on record as denying the claim of William Nyman for compensation for injuries sustained from ptomaine poisoning. Nyman claimed that he suffered the injuries in a hazardous occupation. It was found he had been stricken with ptomaine poisoning after eating pea soup.

The commission holds that eating soup, if conducted along cautious, common-sense methods, is not necessarily hazardous, and rejected the claim.

COMEDY AND  
DRAMA AT THE  
BUTLER TONIGHT

The patrons of the Butler theater will see a great feature film in today's program entitled "The Old Silver Watch." Vitagraph. The picture tells the story of two children who were left orphans and adopted by different people who lived far apart. They took different names and grew up without knowing each other—Mr. Costello and Miss Baird take the grown up parts—the man still has his mother's old silver watch. By chance he meets his unknown sister, falls in love and is about to be married when, at the altar, the silver watch tells the secret. The whole picture is a true portrayal of real life. Don't miss it. "Dress Balls in Pawn." Edison comedy which will make you laugh long and loud. Two college boys have two dress suits with but one coat between them. It's funny to see one left out in the cold shivering, while the other wearing the coat enjoys the warmth and coziness of the inside. "The Prince of Gratitude," a great western picture. "Cave of Spooks," a Pathé. Such a program is seldom seen.
